## COVID-19 TESTING

### REGISTRY PARTICIPANTS BY CONDITION

Rheumatoid arthritis	1105
Osteoarthritis	872
Fibromyalgia	666
Other autoimmune disease	329
Psoriasis	307
Osteoporosis	258
GPA	252
Ankylosing spondylitis	245
Sjogren's	238
Psoriatic arthritis	232
ANCA	182
IBD	163
Lupus	108
Gout	102
Other vasculitis	70
Microscopic polyangiitis	51
MCTD	50
E-GPA	47
JIA	45
Ulcerative colitis	42
Crohn's disease	33
Giant cell arteritis	32
UCTD	27
Antiphospholipid antibody syndrome	26
CNS vasculitis	20
Myositis	19
Behcet's	17
PAN	17
Takayasu's	17
Urticarial vasculitis	17
Autoinflammatory syndrome	15
Multiple sclerosis	14
Scleroderma	14
Sarcoidosis	11
Cryoglobulinemia	10
IgG4 Disease	10
Relapsing polychondritis	7
DISH	5
Anti-GBM	2
NMO	1

The purpose of this registry is to help us understand the COVID-19-related concerns and behaviors of US/Canadian patients with autoimmune and inflammatory conditions and to collect information from patients about their experiences with respiratory illness and testing during the pandemic.
